

Vooner Pump Selection

Pump Model Number Selection

| Step | Procedure | Example |
|------|--|-----------------------------|
| 1 | Use the model prefix for the Vooner pump selected | VG |
| 2 | Specify pump capacity using curves (ACFM ÷ 100) | 2000 ACFM/100= 20 |
| 3 | Specify pump metallurgy using chart | C |
| 4 | Specify cone opening using curves and application L - Low, 4-16”HgV M - Medium, 12-24”HgV H-High, 24-26”HgV | M |

Example: VG20C-M
